

Arrest 14 For Thefts At Plants in Madison

Weekend Reports Also
Include Strongarming
Attempt, Burglaries

A series of industrial thefts was cleared in Madison Saturday with six men being fined and eight boys referred to the police department's youth officer. Investigations to recover missing articles are continuing.

In 18 other larceny reports in the Quad-Cities during the weekend, a strongarming attempt failed, money was stolen from two homes and tools worth \$500 were taken. The wide variety of cases also included many thefts of equipment from autos.

Eight persons were implicated in an investigation of removal of valuable copper cable from the Owens-Illinois Paper Products Division, Fourth and State streets, Madison police said.

Placed On Probation
Clemens Nabors, 21, of 1212 Logan street, Tommy Lee Jones, 20, of 1029 Douglas street, and James Rufus Cross, 24, of 1011 Douglas street, Venice, were fined \$50 each Saturday by Police Magistrate John Bridick. Charged with trespassing and petty larceny, the three also received six-month probation terms.

In the same case, Johnson Smith, 31, of 1202 College street, Venice, was fined \$25 and given six months' probation on disorderly conduct—after being pulled from the fact.

Four Madison youths, two aged 13, one 15 and one 16, were placed under the youth officer's supervision.

Cut High-Voltage Line
Members of the group said in statements that the cable cut with hacksaw blades and taken to the plant yard at Granite City, where the cover was removed by burning. The copper was sold at a scrap metal yard in St. Clair county.

Police had been advised by plant officials Aug. 7 that 480 feet of heavy cable had been cut, saving 35,000 volts of electricity when cut, were taken during a period of several months.

Chief of a floor fan resulted in arrest of two Madison boys, aged 12 and 13, and two Venice boys, aged 12 and 13, all being referred to the youth officer. One said Andrew Lee Mosier, 28, of 810 West Washington street, West Madison, was fined \$10.

Fan Returned To Plant
Sold to Mosier for \$10, the fan was confiscated and returned to Owens-Illinois. Four other floor fans are being sought, having been reported missing on Aug. 7.

Sherman Clemens, 27, of 514 Meredeth street, Venice, was fined \$25 by the Madison magistrate Saturday on committing a disorderly act, removing metal from the Dow Metal Machine Co.

Police had found a pickup truck near the Dow fence Aug. 21, loaded with 50 pieces of aluminum weighing a total of 180 pounds. The truck was taken to Cicero, and the investigation is continuing.

Woman Cut With Linoleum Knife; Husband Arrested

A Granite City woman, 34, who suffered cuts to her head early Sunday morning, is to be questioned today at St. Elizabeth Hospital by Granite City police who arrested her husband on a charge of assault with a deadly weapon—a linoleum knife with a curved blade.

Mrs. Mary Horne, 308 Kirkpatrick Homes, was in critical condition yesterday, but police were told today that she has improved and may be questioned.

Her husband, William Horne, 35, was taken into custody at 3:50 a.m. in the 2800 block of Delmar avenue, and in a statement to police said the cutting occurred during a scuffle which followed an argument over "domestic problems." He said they were in the family auto driving home from a party at the start of the night and he stopped on Madison avenue at 27th street.

Knife Under Car Seat
Horne told police he had worked for a flooring firm, said he reached under the seat for a coat and that his wife was cut about the head during a scuffle over the weapon. The warrant was filed yesterday afternoon by Assistant State's Atty. John Githofor, and Horne's bond was set at \$10,000.

After Mrs. Horne, a local restaurant worker, was injured and her husband, had driven to the 2800 block of Delmar avenue, she drove off in the car after he had alighted. She was not an experienced driver, police said, and officers began chasing the vehicle at 20th street and Delmar avenue where it went through a stop sign. She married through several other stop signs.

Horne told police he and his wife had gone home and then to a Madison restaurant before starting home. The argument started in the parking lot at the restaurant, he related to authorities.

20th St. Reopening Set For Early Fall

Other GC Street Work
On State, Nameoki Rd.
Expected To Start Soon

East 20th street, which has been barricaded since early summer, is expected to be reopened this fall even if the widening of the street is not completed. The city engineer's office, the state highway department reported today.

Another major state motor fuel tax project—the widening and resurfacing of Nameoki road—may be started early this fall north of Madison avenue, and the resurfacing of State street from 14th to 18th street is slated to begin within a week or 10 days, it was learned from the city engineer's office.

While a completion date has not been set for the quarter-million-dollar project, the widening and resurfacing project between Madison avenue and Edgewood street, it is likely the roadwork will be opened when all concrete work is finished, should there be a delay in the asphalt resurfacing.

Reopening Up To City
A spokesman for the state highway department said the removal of barricades will be up to the city, since the street was closed to traffic by the city concerned over a possible collapse of a sewer line. Renials to the sewer line are to be completed within the next two weeks.

The street improvement contractor, A. H. Seebold Co., has finished concrete work east of Omaha street with the exception of traffic islands at the Edgewood street intersection, and the widening work is under way west of Omaha street at present.

An engineer for Seebold said the work should progress rapidly when the sewer repair project is completed, since the added equipment is causing problems in removing old trolley tracks and paving with concrete. The sewer is being relined in accordance with a requirement set forth by the state highway department.

Once the widening work is completed, the project will be for traffic movement, the engineer said. The entire thoroughfare is to be relined with asphalt and electric signals are to be installed.

Granite City has flooded their Civil Defense office recently with requests for fall training information. The office is asking about how they can help the CD effort.

Air Conditioner, Furnace Blamed For \$2000 Blaze

Warfield To Seek Recognition
At Sept. 18 Council Session

An estimated \$2200 in damage was reported today after a 15-minute fire that broke out in the furnace room of the Mickey Ryan Paint Store, 2908 East 23rd street, about 7:30 a.m.

A spokesman for the fire department said an air conditioner ran all night and apparently someone brushed up against the furnace thermostat moving it up 75 degrees. The spokesman went on to explain that when the air conditioner started the building temperature rose to 75 degrees, the furnace kicked on and an apparent oil leak started the fire.

Building damage was estimated at \$700, and a \$1000 loss of contents was reported.

Sections of pipe for water mains in the new Mitchell Public Water district continued to line roadways there after an injunction suit hearing Thursday afternoon in Edwardsville circuit court was continued until 11 a.m. today.

The hearing outcome should determine the fate of the \$430,000 project to provide city water to residents of the unincorporated area, halted after Chouteau Township Highway Commissioner Potter filed the suit.

The dispute concerns damage allegedly caused to roads during installation of the water mains.

Potter claims the water district excavated under and along Central and Greater Granite avenues, and that the district will continue to dig up and destroy roads in other parts of the township to the irreparable injury and great damage of the plaintiff for which he has no adequate remedy at law.

Water for the district would be supplied by a new plant, owned by the city, and the citizens of Granite City to be permitted to serve an unexpired term of office, which continues until April 1963. I feel that everyone will agree that this is a request that should be granted to any citizen of the United States."

Both Warfield and Mayor Davis have stated the dispute will be tried.

**2 Losses of Money
Reported To GC Police**
Two losses of large amounts of money were reported Saturday afternoon to Granite City police by a woman who lost a wallet containing \$200 and a man who lost a payroll check totaling \$180.

Mrs. Doris A. Schoenfeld, 801 Kirkpatrick homes, said her wallet disappeared while she was seated alone at a table in Millie McKey's tavern, 1800 State street, about 1:30 p.m. Saturday. She said the wallet was either lost or stolen.

All Granite City police cars were dispatched about 7:30 a.m. Friday to the vicinity of Terminal avenue and Marville road on a report that a child had been a light plane make a crash landing in a nearby field.

The problem was cleared when it was learned a biplane motorboat was being tested on Horseshoe Lake by an unidentified crew and that a farmer in the area had seen a light aircraft swoop down to within 30 feet of the lake about the same time. The farmer said the plane flew off after the dive.

**Warfield To Seek Recognition
At Sept. 18 Council Session**
Supt. of Street William Warfield is making plans this week to appear before the city council next Monday evening in an effort to regain jurisdiction over the operations of the city street department, taken away two weeks ago by Mayor Davis.

Warfield told the Press-Record he is hoping to meet in advance with aldermen to arrange for the matter to be placed on the agenda for the Sept. 18 council session. The agenda is prepared in the mayor's office either the Thursday or Friday before a meeting.

"I don't want the same thing to happen as happened to Alderman Betine's letter at the last meeting," Warfield explained.

At last week's meeting, Alderman Casner Skubish attempted to speak, but the issue was not discussed on the floor, after the mayor ruled the agenda could not be interrupted. The council session went past the 11 o'clock curfew and it was not read.

Warfield had intended to present a letter at the same meeting, but the issue was not discussed on the floor, after the mayor ruled the agenda could not be interrupted. The council session went past the 11 o'clock curfew and it was not read.

Schmer Hardware Moves To New Quarters

Tripling of display space is the main reason for the relocation of the Ben. Schmer Hardware store at 1920 Delmar avenue in remodeled quarters next door, Manager Ted Berger said today.

Moving merchandise from the old store into the new was completed over the weekend with no loss of service to customers.

"We're on the move now after knocking a hole in the wall to carry merchandise through," Berger said. "We plan to have a formal grand opening in October but will have business as usual until then."

The new location will contain about 16,000 square feet of floor space, 10,000 of which will be for display purposes on two floors — basement and main floor selling space.

Hardware, plumbing, garden and electrical supplies will be kept in the basement and housewares, gifts, toys and paints will fill the main floor. A balcony area is expected to display unfinished furniture, fireplace equipment and kitchen furniture.

"The old quarters were too cramped and we couldn't display merchandise properly," Berger said. "The new place will enable us to serve Granite City better as well as handle new lines."

Work began early in August with G. H. Sternberg & Co., as contractor, under a \$100,000 building permit. A laborer's strike resulted in a delay of about two weeks.

The old store contained about 3000 square feet of floor space. It was purchased by the Granite City Trust & Savings Bank to provide a through driveway for its drive-up teller windows.

Wood River Ministers Oppose Later Closing

The Wood River Ministerial Alliance took action last week to oppose the current extension of closing hours for unincorporated areas taverns, it was learned here Friday.

The entire alliance membership plans to attend the next county board meeting to voice its opposition.

The 1 a.m. closing time was changed to 2:30 a.m. on weekdays and 3:30 a.m. on Sundays in a surprise action at the July board meeting.

Quadrant City ministers and an Alton area minister protested at the August meeting and were promised that the matter will be reviewed by the board in December.

Rev. G. R. Schreiber is president of the Wood River alliance. Ministers have attacked the "secrecy and haste" of the July action and have expressed fear that late hours and uniform closing will cause cities to lengthen their tavern hours and will encourage undesirable elements to visit Madison county.

Points made by Rev. Vernie Barnett as spokesman for the local group at the Aug. 23 supervisors' meeting included the following: non-routine preparation of the resolution and omission from the agenda prevented opposition on a regular basis; a protest before the vote; police, jail and patrol costs exceed the increase in sales tax revenue which taverns are increasing with 500 liquor outlets and 153 schools in the county, the fact that some taverns are doing little business is not pertinent; a 1 a.m. law would be more uniform; closing violations will continue unless there is stricter county enforcement, despite the latter legal hours and the change can lead to an increase in lawlessness, drunken driving, broken homes and late-hour noise.

Weed Cutting Starts In Old Cemetery
Towering weeds, six to 11 feet high, are being cut in the old cemetery in East Granite near Kirkpatrick Homes housing project. The work started on Saturday and is to be continued today, it was learned from Mayor Davis.

After weeds are cut, the mayor said, street department crews will remove dead trees and trim others.

Cleaning the cemetery was authorized during last Tuesday's city council session, when Sixth Ward Alderman Samuel Shackelford and Mayor Davis reported they had been receiving numerous complaints from nearby residents.

RAIL REMOVAL along 18th street which started last week to prepare for resurfacing the busy thoroughfare between Madison avenue and State street.

New 'Smorgasbord' Restaurant Opens

Smorgasbord-type eating will be the feature of a new dining establishment which opened Saturday at 4900 Namekook road, according to the owner and operator, Charles "Bill" Burns.

Appropriately called "The Smorgasbord," the establishment will be operated on a unique weekend only basis, with the smorgasbord tables opened from 4 p.m. to 9 p.m. on Saturday and from noon until 8 p.m. on Sunday, specializing in food.

Monday through Friday Burns will cater to private parties and other large gatherings and dinners.

The owner said that in about a month the establishment will begin to feature pancake breakfasts on Saturday and Sunday mornings. Burns said he plans to serve 27 different varieties.

Burns, who also operates the Grand Cafe and Catering Service at 1413 Twentieth street in downtown Granite City, purchased the building on Namekook road three years ago. It was operated under lease as the "White Swan" until it was closed a year ago.

Prior to Saturday's opening, extensive interior and exterior redecorating was completed, the owner said. The main dining room will seat 250 persons, smaller adjoining rooms 80 and 45 people.

A two-acre parking lot has been resurfaced, a new front entrance has been built and evergreen planted around the building. The establishment will employ eight experienced people, Burns said.

Mrs. Linenbroker Dies Sunday At Age of 79
Miss Martha C. Linenbroker, 79, of 3724 Namekook road died at 10 a.m. yesterday at the Maternity Home in Alton, where she had been a patient for one year. She had been in declining health for several months.

Mrs. Linenbroker was born in Marengo, Mo., and had lived in Granite City 63 years. She was a member of Niedringhaus Memorial Methodist Church and belonged to the Women's Society of Christian Service.

She was the widow of Christ Linenbroker, who preceded her in death in 1941. She had married her home with a daughter, Mrs. Herman (Helen) Mueller, in recent years. Four brothers and a sister also preceded her in death.

Survivors, in addition to Mrs. Mueller, are a son, Martin, of Worden, an accountant at General Steel Industries; a brother, Herman Raub, Granite City; a sister, Mrs. Frank (Amelia) Linenbroker, Crane, Mo.; one grandchild and three great-grandchildren.

Funeral arrangements are given in an obituary notice elsewhere in this issue.

Karandjeff Says Letters Can Save Local IRS Office

Henry D. Karandjeff, local civic leader, said Friday he believes that if enough area residents would write their legislators in Washington, loss of the local Internal Revenue Service office could be prevented.

Karandjeff, who is board chairman at the Granite City Trust & Savings Bank, said he received a letter that the office would be closed.

Gov. Melvin Price assured him a recent letter that he was taking the matter up with IRS officials in Washington in the effort to block closure of the Granite City office at the end of this month, and that Senators Everett M. Dirksen and Paul Douglas have indicated they would do the same.

Jay C. Philpott, head of the District IRS office in Springfield, apparently is the source of the decision to close the Granite City office, Karandjeff said, and he feels taking the matter to Washington is the only way to prevent the move.

Maintain Position
In spite of local opposition, Philpott has maintained his position that the resulting service would be more efficient and economical, with Quad-Cityans going to Alton or East St. Louis for tax services.

Karandjeff disagrees with this. "When people are called to the IRS office they usually are called by letter to appear at a specific time," he said, "and to have to go to Alton or East St. Louis would certainly require them to take time off from work."

Several Quad-City individuals and organizations, including the Tri-City Chamber of Commerce, the Tri-Cities Trades and Labor Council, and Local 435 of the Retail Store Employees Union have protested closure of the office.

Strike Threatened By Water Office Workers
A strike by approximately 41 office workers of the East St. Louis and Interurban Water Co. was threatened today after the workers, members of Local 30 of the International Office Employees Union, voted last Thursday in favor of a walkout.

Most of the workers are employed at the Belleville and East St. Louis office of the firm, with "four or five" engaged at the Granite City location, according to E. Clinton Smith, manager of the water company.

The company is reportedly offering the workers a 10-cent hourly wage increase for an 18-month period. The union is seeking a 10-cent hike but for 12 months.

Herbert Wilhelm, executive secretary of the Greater East St. Louis Central Labor Council, said negotiations have been under way since the old contract expired Aug. 20.

Wilhelm, who has written to the international union seeking strike authorization, said he had no doubt the strike would be approved.

The dispute is being studied by Federal Mediation and Conciliation Service in St. Louis.

Grant Four Divorces In City Court Saturday
Four divorce decrees were finalized in city court here Saturday morning before Judge Fred P. Schuman.

Beulah Brown was granted divorce from Eugene Brown on the grounds of cruelty. The couple remarried on Sept. 2, 1959, and were separated on Aug. 2 of this year. The plaintiff was granted the custody of one minor child.

Also charging cruelty, Jo Ann Seifried, a minor, was divorced from Frederick Seifried. The plaintiff was granted custody of one minor child. Married on Jan. 16, 1960, the couple separated a 12 to 15-year sentence for embezzlement, forgery and confidence game.

Notice was filed Friday in Springfield with the state parole and pardon board for Hodge by Atty. Robert Hickey, camp of Springfield, who earlier this year filed a similar plea which was turned down May 4 by Gov. Kerner.

At that time, Kerner suggested Hodge file another petition at a later date. Since the rejection of the earlier appeal, Gov. Kerner has named four new members to the five-member parole board.

Hodge Again Files Petition For Parole
A pardon or a reduction of sentence will be sought Oct. 10 by Orville E. Hodge of Granite City, former state auditor who is serving a 12 to 15-year sentence for embezzlement, forgery and confidence game.

Assessment Hearings To Be Set Here Soon

Hearings dates for Granite City, Namekook and Venice townships tax assessment complaints by the Madison county board of review should be set soon, Board Clerk Leo J. Struif said Friday.

Struif said approximately 125 complaints have been filed by Venice and Namekook township property owners, mostly on real estate assessments. Deadline for filing complaints for those townships is passed. The Granite City assessment list is to be published in the near future.

The board is conducting hearings this week in Alton, Struif said, and will likely be there at least part of next week. He said no decision has been reached as to where hearings will be conducted when the board finishes there.

Hearings are held only on those complaints filed within the prescribed time limit, with property owners notified as to the time and place to appear before the board of review.

Gus Haller, chairman of the Madison county board of supervisors, also is chairman of the three-man board of review. Other members are Charles A. Rook, Alton, and Pete Fields of Venice.

State Agency Will Set College Loan Standards

State Senator Seymour Fox, 42-year-old Chicago attorney, is the chief author of a new state law which paves the way for financing of long-term loans for worthy college students. The law was passed by the recent General Assembly and signed by Gov. Otto Kern.

Under the new act's provisions, a state agency, to be known as the Illinois Higher Education Assistance Corp., is created to raise operating funds from private sources. The corporation, which will be governed by a board of 20 directors, will underwrite loans to students whose applications are approved by college officials.

Fox, former assistant director of public information for the city of Chicago, who now serves that city as assistant corporation counsel, says his proposal will put pressure for federal grants to college students. He said 12 other states have similar agencies and that their experience shows few defaults.

The board of directors will be appointed as follows: Six elected by the governor, by the speaker of the Illinois House and by the president of the State Senate.

State Auditor Michael J. Cleveland, and State Superintendent of Public Instruction George T. Wilkins, Edwardsville, will serve as members in an ex officio capacity.

Under the plan, students will be allowed loans of up to \$1000 for a school year but not for an accumulated total of more than \$5000.

The agency will screen each applicant and, if recommended, will notify the place where the application for the loan and had been filed. Fox said it will permit every student with income, Edwardsville.

Pressing high school academic achievements get a loan to go to college.

The law's chief sponsor says no state appropriation or money is involved in setting up the agency, and that it may take a few years, or possibly only one year, before the board is able to obtain sufficient money from contributors to start financing loans to applicants. He said that after the non-salaried board is able to acquire funds, it will start making loans to students.

The act defines the term "higher education" to mean any educational institution offering at least a two-year course acceptable for full credit toward a baccalaureate degree, or any graduate profession school, including any public and private institution, interest on the loan cannot be in excess of 6 per cent.

Wildins said it will be up to the board to set standards for loans, but "guessed" that the loan must stretch out for as much as 15 years to pay back as total of \$3000 to \$4000 a year, or more than \$1000 a year. He suggested a student might make a payment within five years after he graduates, and the balance during the next ten years.

Originally, the bill included a provision to require the student to pay the loan within four years after graduating, but the House struck this to leave it to the directors to establish loan standards.

The law in its preamble says the new program was necessitated because "numerous qualified high school graduates are unable to begin or continue programs of college and university education because of financial hardship and thus are unable to develop knowledge, skill and ability to their full potential."

A provision of the bill which Fox says may encourage public support and contributions is that the agency "shall be operated for charitable and educational purposes and strictly non-profit," and that no part of the earnings "shall inure to the corporation." This will allow contributions to be deducted in computing income taxes.

In 1901 a new National League baseball rule was put into effect which made it illegal for a catcher to receive the first two strikes on the bounce.

Miss Edith J. Shafer And Robert Deaton Wed Saturday

Arrangements of Fuji chrysanthemums, carnations, gladioli and greenery decorated Sacred Heart Church Saturday morning for the wedding of Miss Edith J. Shafer, a daughter of Mrs. Frank Shafer, 2611 State street, and the late Mr. Shafer, and Robert J. Deaton, son of Mr. and Mrs. Joseph Deaton of St. Louis.

Hurricane lamps in the aisles illuminated the church for the 11 o'clock ceremony performed by Rev. William Ward.

Mrs. Margaret Crawshaw presided at the organ, and Peter Gallas was vocalist.

The bride was given in marriage by her godfather, James G. Holland. She wore a gown of candelight tulle de sole designed with an oval neckline and tapering three-quarter sleeves. The voluminous skirt was intricately draped from a fitted waist accented with a bow at the center front. The back was fastened with small covered buttons to the V waistline which extended into the skirt with wide satin ribbon. A fingertip veil of imported silk illusion billowed from the crown of the headpiece, a rose of rose wood forward above the brow and the bridal bouquet of cascading white and pink orchids, white orchids and miniature white orchids surrounded with variegated foliage.

The bride's only attendant, Miss Margaret Anne Holland, was attired in tulle jeweled satin. The softly draped bodice was styled with a low round neckline and short cap sleeves. The front panel of the skirt was draped from the hemline to the side of the waist while the back panel created an illusion of fullness with three wide pleats. A headpiece of large matching satin roses completed her costume and she held a crescent bouquet of champagne, bronze and gold slipper orchids on a background of Hawaiian tea leaves.

Arthur Deaton of St. Louis was best man for Mr. Deaton, and serving as usher were M. Thomas Brown, a nephew of the bride.

MAIL-ORDER QUACKS HARVEST DEATH

A recent article in the American Medical Association's "TODAY'S HEALTH" told how people gamble, not just their money, but their very lives when they order medicines and medical devices by mail.

AVOID MAIL-ORDER QUACKERY

Postal inspectors say, "Any therapy, device, remedy, or 'cure' sold by mail should be treated with suspicion, especially if it makes sweeping claims."

UNITED STATES POSTMASTER GENERAL SAID

"In an era when wonder drugs and great advances in surgery have produced medical miracles, it is puzzling why so many people pay money for frauds. Do not take or use any medicine or health device sold by mail without first consulting your physician."

ASK FOR OUR PROFESSIONAL OPINION

As your pharmacist, it is our moral, willing and legal duty to give you an informed answer to any ethical question. We can tell you when it would be wiser to depend on a physician, rather than on advertising claims.

QUICK PROFITS DO NOT INTEREST PHARMACISTS

We depend on your continuous patronage. That is why you are safer when you get all medicines and health needs from us.

South of Madison avenue, the city has the responsibility to acquire the necessary right-of-way with motor fuel tax funds, to widen the roadway to four lanes. No deadline has been set for completion of construction plans for this phase of the project.

Second County School Psychologist Named

Ruth Hardwick, former psychologist with the West Frankfort office of the Illinois Department of Public Instruction, has been named second county psychologist for Madison County.

Mrs. Hardwick will join W. F. Rhine, who has served the county since July, 1960, in providing psychological services to Madison county schools under a cooperative arrangement by 14 or the 15 boards of education. Venice does not participate.

County Supt. Wilbur R. L. Trimpe said the appointment of a second psychologist was made possible by an increase from \$3000 to \$5000 in the reimbursement from the state toward salary and expenses for the position.

Mrs. Hardwick, a native of Berlin, Germany, arrived in the U. S. in 1940. She studied one year at the University of Berlin and received her bachelor's degree from William and Mary College. She holds a master's degree in psychology from the University of Iowa, and served two years as staff psychologist at the Iowa Annie Wittenmyer Home in Davenport.

Rhine has estimated there are 1000 educable mentally handicapped children in Madison county, and said the school psychologists also are interested in the gifted child, the physically handicapped, socially maladjusted, and those with speech, behavioral, visual and hearing problems and others.

Four Scott Air Base Buildings To Be Sold

Four buildings at Scott Air Force Base — a recreational building, a dormitory, an automobile maintenance shop and a warehouse — have been declared excess and are being offered for sale to the highest bidder, the Chicago Army Engineer District has announced.

Sealed bids for any or all of the buildings will be received until 2 p.m. Sept. 21, at which time they will be publicly opened. Additional information and bid forms may be obtained from the Resident Engineer, Bldg. 438, at the base.

Nameoki Sewer System To Be Re-Inspected Within 30 Days

Re-inspection of the entire Nameoki sanitary sewer system to uncover illegal surface water drainage tap-ons is to be started within 30 days and all violators will be arrested, it was announced Friday by Mayor Davis.

"Letters have now been sent to all persons with sewer connections giving them a 30-day notice and the re-inspection will start in October," the mayor added.

"We know of at least 50 violators and they are entitled to the 30-day period to disconnect their storm water connections," the mayor said. "But, if they are still in violation when the inspection starts, warrants will be issued for their arrest."

He explained that all defective manholes which might be a source of infiltration of storm water are in the process of being repaired and arrangements are being made for a daily schedule of inspection at each lift station, with the reports to be submitted to the mayor's office.

In the letter to the sanitary sewer users, the mayor pointed out the city is presently engaged in a costly repair of sewer breaks and that "one of the contributing causes is the entrance of storm water into the system."

Woman Seeking Damages Claims Chair Collapsed

A Venice woman is seeking "a fair and just verdict" for medical bills, other damages and personal injuries allegedly suffered May 21, 1960, when she fell to the floor after a chair on which she was sitting collapsed.

Mrs. Mae Ebersold filed the damage suit last week but did not stipulate the amount she seeks from Granite City Moore Lodge 272, where she said the mishap occurred.

Shoplifter Caught

A 19-year-old boy was caught shoplifting in the F. W. Woolworth Co. variety store, 1327 Nineteenth street, at 3:50 p.m. Thursday and was turned over to the Coordinated Youth Service. No charges were filed, police said.

Venice Construction Permits Total \$4000

Construction costing \$4000 was authorized in Venice during August, a monthly listing of building permits showed today.

A \$3500 permit for repair and remodeling of a two-story frame residence at 302 Main street was issued to Willie Radman, and Clemon Woolfolk plans a \$500 one-room frame addition to a home at 1011 Market street.

Two Fire Alarms

Thursday Afternoon

Nameoki road station firemen answered two fire calls just minutes apart Thursday afternoon. The first call involved burning of cut grass in the 2300 block of Sunset drive near the new Sacred Heart school annex. No damage was reported, as the blaze was being watched.

The second alarm was given at the Ballerone Village Shopping Center arcade where a cigarette had been thrown into a mail box. The letter specifies that storm water is entering the sewer system not only from downspouts and yard drains but also through the deliberate removal of manhole tops and cleanout tops. An appeal is made for all residents to see that unauthorized persons do not tamper with the manholes of cleanout apertures.

County Seeks Review of Tavern License Case

A review is being sought of the Illinois Liquor Commission's reversal of an order by Gus Halter, county liquor commissioner, to close George's Place, a tavern on State Route 111 near here.

Halter filed a complaint through State's Atty. Dick H. Mudge Jr. last week in Edwardsville circuit court asking for an administrative review of the July 14 reversal.

The license of George Nelson, operator of the tavern, had been revoked by the county commissioner June 8 after a special investigator for Mudge's office had testified that waitresses there had "solicited" customers.

Nelson appealed the case to the state liquor commission, which based its reversal on the contention that there was not sufficient evidence to justify revocation.

3 Counties Plan Joint Teachers' Institute

Superintendents of schools in Madison, Bond and Clinton counties met Thursday in Edwardsville to plan a three-county teachers' institute on Oct. 12. Madison County Superintendent of Schools Wilbur R. Trimpe said that it was the first attempt in the state at conducting a joint institute. He said that it should be the beginning of a profitable teachers' institute, which is required by law. He added that the teachers at the institute would intermix in the three counties, attending specialized programs particular to their fields.

Latest report the police department shows over \$1200 collected from 168 persons with delinquent tickets. The crackdown began early in August.

The parked car, belonging to John Stanfill, 64, of 2296 Edison, said a dedication ceremony will be discussed.

Hadley Death Ruled Due To Natural Causes

An inquest conducted last week by Deputy Coroner Francis Lacey into the Sept. 1 death of Murphy C. Hadley, 44-year-old Madison resident, resulted in a verdict of death due to natural causes, probably a coronary thrombosis.

Hadley was found dead in his car after it ran off State Route 111 about one-half mile south of State Route 35 and struck a steel post and a small tree. Investigating officers said the car was only slightly damaged in the impact.

Increased Radioactive Fallout In Springfield

An increase in radioactive fallout was noted last week in Springfield by a state health office but the amount is too slight to cause immediate danger, it was reported.

Clarence W. Klassen, chief sanitary engineer in the Division of Sanitary Engineering of the Illinois Department of Public Health, said the Bureau of Radiological Health has been placed on a round-the-clock alert since the recent Russian test series.

In recent months fallout readings were taken at Springfield only on a routine basis, Klassen said.

Devices for checking air pollution include bottles to catch rain; sticky paper to capture stray particles from the air and a vacuum sweeper to "bottle" air.

Samples taken are sent to a laboratory in Washington for analysis. On a national basis the amount of fallout has been described as negligible so far.

Public Likely To Be The Loser In Fight Between City Officials

Two elected Granite City officials are feuding and fussing, but the loser of the fight could be the public that is paying the bill for operation of the city government. Maintenance and improvement of streets cannot proceed on a sound, planned basis as long as the dispute continues.

Probably the most important issue is whether proper services will be rendered each day in the categories that have been supervised in the past by the superintendent of streets. Charges and countercharges of favoritism, motivated by political, personal or other reasons, are of less import to the public, for neither individual is entirely blameless. The superintendent was active in the last election against the mayor, and the mayor is using as yet unapproved sections of the Southern Illinois University city reorganization study to retaliate.

If there are going to be any changes in the city government—whether to replace the mayor with a city manager or to replace the elected street superintendent with an appointed official—the time to do it is at an election, so that there can be an orderly transfer of duties. Short of that, the only result is likely to be chaos and, in this particular instance, inadequate and improper care of Granite City streets.

Though much of September has been as warm as August, it is clear that winter is fast approaching. The football season will begin this week, and our calendar reminds us that there are only 88 shopping days until Christmas.

Interstate Route Gives Venice Bridge Its Needed Increase In Traffic

The record number of vehicle crossings recorded in August bodes well for success of the McKinley Bridge financing program. A marked increase in traffic has occurred simultaneously with opening of Interstate Route 70 and its access routes close to the bridge's western approach.

Ability of the city of Venice to make ends meet as a bridge operator was predicted on a substantial traffic gain after renovation work and the new highway link in Missouri.

The needed upturn has now taken place, and the outlook probably will become even brighter when the Quad-Cities' new riverfront road is constructed and Venice makes arrangements for a traffic grade separation at Broadway and Main street.

All Quad-City Schools Now Teaching Russian Language

Quad-City schools deserve special commendation this year for all of the local teachers offering the Russian language as an elective subject for high school students.

Addition of Russian to the curriculum is a farsighted step. There is no doubt that the United States and the chief Communist country are wielding the most influence over world affairs, and we cannot compete effectively if we cannot communicate.

Local school systems rate congratulations for being in the forefront of the many districts that are including Russian in the instruction program along with such better known languages as Spanish, Latin, German and French.

Woman Beaten By Man Won't Press Charges

A Granite City woman named the man who she said beat her up Tuesday evening at a tavern on Chouteau Slough road, but then declined to press charges against him, county authorities reported.

Found walking along the "pipeline road" at 7:05 p.m. by sheriff's deputies, the 24-year-old woman said the beating occurred at a nearby tavern because she refused to go out with the man.

She said she had been refused a ride into Granite City by taxi cabs and private autos. A passing cyclist spotted the girl walking and told sheriff's deputies.

Arrive In Time

Firemen arrived at the rear of Southwick Hardware Store, 1913 State street, at 6:15 p.m. Friday in time to extinguish a trash fire that had just caught a two-car garage on fire. The spokesman for the fire department estimated \$25 damage to the garage.

Auto Seat Belts Expected To Reduce Severity Of Injuries

It has been said that everyone talks about the weather but no one does anything about it. This has applied much of the time also to the problem of motor vehicle accidents, but a local Labor Day project may be a forerunner of corrective action.

Public apathy has limited the use of seat belts—credited with greatly reducing the severity of crash injuries—but a breakthrough was made here with a complete sellout of 250 safety belts obtained for Granite City Steel Co. employees.

Since new autos will include attachments that simplify belt installation, popularity of the device is expected to spread rapidly. The result could be a significant reduction in street and highway casualties.

When every citizen looks out for himself alone, the nation is apt to succumb.

The time to pay attention to your health is while you have it.

Activity At Harbor Will Help Expand Local Tax Base

A reader's comments about development of the local port indicate that possibly a more detailed commentary is warranted. It is true that the Tri-City Regional Port District and Bi-State Development Agency are public bodies that will not pay taxes, but most of the related activity which they attract to the harbor area will be taxable.

Presence of ultra-modern loading and storage equipment at the harbor can prove helpful in two ways, in addition to the obvious spur to shipping, processing and industrial development. Existing businesses here should be able to expand their sales areas and employment by utilizing the expanded transportation facilities at their doorstep. And shipping rates can be held to a minimum—since the agencies do not have a profit motive—thus providing an extra incentive for tax-paying employers to locate here.

As a further example of the thought being given to the local tax base, a proposed warehouse acquisition program is to include special arrangements to ease the tax load to governmental agencies. With the earlier point that port facilities are being established without a tax burden being incurred, it is clear that the harbor development will be a "good deal" in every way for Quad-City residents.

Make up your mind to do something every day to improve yourself.

THE PASTOR SPEAKS

SECOND BAPTIST CHURCH
BY REV. W. L. SHOWERS,
Pastor

Christian joy is a fruit of the Holy Spirit. There are nine fruits of the Spirit, called fruit, a plural word. Three have to do with the individual—love, joy, peace. Three have to do with our neighbors—longsuffering, goodness, gentleness. Three have to do with our relationship to God—faith, meekness, temperance.

No one has ever seen an apple tree or grape vine working, but fruit-producing juices are working silently and unseen, producing the beautiful, luscious fruit. So it is with the Holy Spirit—He, like the wind, is unseen, but we see the result of His power in fruitful lives.

Anything spectacular, ostentatious or flashy in the way of Christian service is dishonest and abominable with God. He is not interested in what happens. Life may become turbulent, all too unbearable, apart from His Christian service is dishonest and abominable with God. He is not interested in what happens. Life may become turbulent, all too unbearable, apart from His Christian service is dishonest and abominable with God. He is not interested in what happens.

FORMER ALDERMAN GIVES OPINIONS

To the Editor:

In your paper of September 5, 1961, I was very much alarmed to notice that the Mayor of our city had given orders to the Street Department. I think this was a grave mistake on the part of our Mayor.

I served as alderman for four years during that time Mr. Warfield was Street Superintendent. I know he worked hard on the job and as every one knows he is doing an excellent job. He has proved that he knows what he is doing. He tried in every way to cooperate with the Council and the Mayor during the time I was in office.

Now Mr. Mayor don't you think you have overstepped your authority when you let personal feelings interfere with the duties of one of the most important officials of our city? You said let him set at the garage and not. Are you not aware of the fact that he is elected by the people of Granite City and is being paid with tax payer's money? Does it not matter to you that if all authority is taken away from him, he is still in office and will still be paid during this period of rotting.

You said the lift stations had been neglected. It seems very strange that you had to go underground to find something wrong. The people can't see underground. Is that the reason you had to dig where no one was talking about?

Mr. Mayor, don't you respect the vote of the citizens of Granite City? What if the Governor of our State would say that you were because of a political reason, that he was the boss and was going to give the orders to your staff? How would you feel? Mr. Mayor it is time for you to get off your high horse, respect the citizens of Granite City and the office of Mayor and let the man that was elected by the citizens of Granite City do his job. The voters can decide whether or not he is dead.

One who believes in a government by the people.

WANTS STREET SUFF. POST TO REMAIN ELECTIVE

To the Editor:

What is going to have to happen before we wake up and take note of the political machine we have in Granite City and it is getting worse.

Are we going to sit back and say yes to Mr. Davis and his "yes" men or are we going to exercise our rights as a member of a democracy to see that right is done and not the whims of one politician.

If you remember we pay through taxes for these whims. Can we afford them? We have one big reminder of such a whims at 23rd and Madison Ave.

An example of the machine at work was the machine at Mayor Davis and Supt. Warfield (Press - Record, September 3, 1961).

Mayor Davis wants this office of Street Supt. an appointive officer, not elective.

Do you realize the danger of this? This would make another "yes" Mr. Davis' office, not a servant of the people. If we sit back and continue to let all our elective officers become appointive officers, we are letting ourselves in for something we cannot afford. We are also paying right into the hands of Communism.

We can say we live in a free country but unless we accept the responsibility, and it is a responsibility, not a privilege, we will lose everything our forefathers fought so hard for.

Let's get together and keep our elective officers elective not appointed by one man.

READER SAYS CITY FEUD CANNOT TO TAXPAYERS

To the Editor:

This Davis-Warfield political dispute must not be carried on at our tax money expense! Warfield was elected and is being paid to be the superintendent of streets. We should urge all our council representatives to investigate and to take the proper course of action to see that this job is being done by the proper legal authority. We cannot afford to let our money be spent by personal and selfish political ambitions! We must demand that our city officials cooperate for our public interests. Daily we seem to be getting evidence that our taxes are being wasted and related to serve officials whose interests are the taxpayers' concern instead of having officials concerned with the taxpayers' interests!

Yours very truly,
(MRS.) DORIS N. MANN

FURTHER QUESTIONS ON SEWER BREAKS

To the Editor:

Another question. Since every lot in the Terrace Lane area subdivision has an easement adjacent to it, and easements were for sewer-lines, utilities, etc., why were the sewer-lines not put on the easements but under the streets? Certainly it is less costly to repair a break under the ground in an easement rather than under a surfaced street. Surely traffic would not be tied up on all the streets. Entrance to and from our houses and garages would not have been blocked if the sewer-line was on the easement, which is either at the back or side of a house.

Could one defective joint (which showed up less than a year after the installation of the sewer-line) have caused the chain reaction and shift of pipes under the heading "Chain Reaction Damage"? If these weak spots showed up so soon after the sewer-line was installed, was not the contractor who installed the line liable. If he was not made to replace the whole line, was he not responsible for its repairs? Should the whole cost of the repairs be borne by the city and taxpayers if breaks were caused within the year of the sewer-systems' installation?

Near the end of the Aug. 31 article I read, "We can't shut off the pumps or sewerage would back up into the homes." Are we to assume then, that the

pumps were shut off on the night of Aug. 16 when our basements were flooded with sewer water and everything else that goes into sewers, causing my husband and I to work until 5 a.m. cleaning it up? It goes without saying, we had to throw out many valuable items which were damaged because of this sewer back-up. Who is liable?

Last of all the article quotes Pearson as saying, "We're crossing our fingers and hoping no other breaks will occur." If crossing our fingers is the solution, we believe that the fingers found in the street, in front when the broken pipes were found in the street, in front of our house, and wonder whether crossing them now will prevent further breaks.

FOR WANT OF A NAIL, A KINGDOM WAS LOST

To the Editor:

Painfully the soba came from the dark room. The mother opened the door and came in and tried to make her daughter eat something. The girl was depressed because she needed a book from the Public Library.

This book was checked out of the Public Library by some overgrown child who was just too tired to drop the book in the box in front of the library or was just too busy to bring it down. He had only had the book for 5 months. In this case the loss of the book cost the girl a college education because now she could not get the English scholarship that she was trying to get.

Maybe this exact scene has never happened but there are hundreds much less tragic that go on every year.

When you finish reading this article go look in that dingy closet of yours and see if there may be a book in there that is long overdue. The library wants it back!

Bond Power, Voting Likely To Limit Future Levee Funds

Whether the East Side Levee and Sanitary district? Still in the throes of a shift in political power from one faction to another, the district also will begin a new era in January 1963, when a referendum for a referendum on each general obligation bond issue will go into effect.

For the remainder of 1961 and all of 1962, the referendum provision does not exist, but spending will be limited because the district is near its present limit on bonded indebtedness.

Although there may be competition among various projects for the uncommitted funds, the Granite City Citizens' Sewer and Drainage Committee has obtained a pledge from levee board members that local storm drainage will receive top priority. Compared to the amount spent in other areas by the district, Granite City is regarded as the most deserving, as well as the most in need of drainage aid.

At stake is a \$2,168,459 uncommitted balance — \$1,328,459 presently existing and an additional \$840,000 in bonds scheduled for retirement this year and next year.

Promises Of Aid
The full amount was promised for Granite City drainage at a meeting between city officials, drainage committee members and levee trustees this summer, and a study of the available funds was authorized at the September levee board meeting last

year, when the committee formally requested levee district participation in Granite City's stormwater drainage improvement.

President Lawrence Tolar said at the board meeting that he hopes the district can devote "at least \$1,800,000" to the local program.

The \$840,000 in bonds due for retirement consists of \$175,000 in 1961 and \$665,000 in 1962.

This year's retirements include \$10,000 on Bond Issue No. 21 in November and, in December, \$40,000 on Issue No. 9, \$100,000 on No. 11, \$200,000 on No. 12 and \$500,000 on No. 18.

The 1962 schedule follows: March, \$160,000 on Issues No. 22, \$25,000 on No. 23, \$15,000 on No. 24, \$35,000 on No. 25, \$15,000 on No. 26, \$10,000 on No. 27, \$35,000 on No. 28, \$25,000 on No. 29, \$25,000 on No. 30, April, \$20,000 on No. 19; July, \$40,000 on No. 17; August, \$75,000 on No. 20; November, \$10,000 on No. 21; and December, \$80,000 on No. 11, \$200,000 on No. 12, \$25,000 on No. 13, \$15,000 on No. 14, \$30,000 on No. 15 and \$500,000 on No. 18.

\$1,474,000 Work Scheduled
The \$1,328,459 estimate of present uncommitted funds is based on a listing of scheduled projects, totaling \$1,647,000, deducted from an aggregate bond indebtedness of \$2,975,459.

With bonding authority amounting to 2½% of assessed valuation, which is \$537,618,375 for 1960, the maximum on bond-

14 Quad-City Men To Be Drafted In Sept.

Increased local draft calls for September include 14 men for induction and the highest number of men for physical exams since the Korean War — 60, the selective service office in Edwardsville reported today.

This month's quota for the entire county is 48 draftees, and 165 men are required to take military physical exams. In the Quad-Cities area, served by Local Board 167, six were called for induction and nine for physicals last month.

Men called for induction must report to the Edwardsville office on Sept. 15 and those taking physicals do so in St. Louis on Sept. 22.

Only the Army is currently drafting men, a selective service spokesman said, with two years' active duty followed by four or more years in a reserve status.

To be eligible for induction, men must be at least 23 years of age by Sept. 1, 1961, and for physicals, must be at least 22 years of age by the above date.

Sullivan Addresses Noonday Optimists

Andy Sullivan, head football at Granite City high school, was the guest speaker at Thursday's meeting of the Noon Day Optimist Club held at the Elks Club. Thirty members attended the luncheon.

Sullivan gave his predictions for the coming year and said he expected his team to win more games, especially if they can win the season opener at Assumption of East St. Louis. He pointed out the value of the return of more lettermen with game experience. He went on to describe the members of his team in detail.

Richard Yates, director of athletics in the Granite City senior and junior high schools, was a guest at the meeting.

The Holy Catholic Apostolic Mass was offered for the first time Sunday at the Sacred Heart Polish National Catholic Church, 809 Reynolds street, Madison, with the Rev. Eugene S. Prybylski officiating.

"In years past, a controversy has raged concerning the fairness of the application of a multiplier to Granite City as the county moved toward the application of full fair cash value assessments as that term is applied in the state of Illinois."

"While that controversy and some of the legal questions surrounding evaluations and assessments have subsided, it may be that the problem is still imminent. There have been charges and counter charges that from assessment jurisdiction to assessment jurisdiction within the county, and particularly for many of the townships surrounding Granite City that there are substantial disparities in assessments as well as for particular properties in the city."

"It has not been possible to examine this question in detail. Experience in the states and in the country, however, would indicate that such is probably the case. Under our present system, the best remedy lies with action at the county level."

Conceded Effort Needed
"It would behoove all concerned to work toward a complete reassessment of the whole county through the bringing of a firm of outside professional appraisers, if this were politically and financially feasible. The comprehensive tax mapping pro-

gram that was underway in Madison county would alone have provided data helpful in the taxation and assessment procedures. The program has been cut back by the recent actions which have resulted in the curtailment of the levy which supported this program. It should in some manner be brought to a completion and thereafter kept current."

"Lacking a complete reassessment, it behooves the county authorities especially through the treasurer and the board of review to conduct continuing studies through the examination of actual sale prices as compared to assessed valuations and to press toward the correction of inequities in assessments that might exist over the county."

City Should Continue
"The city should maintain a continuing interest in this problem through all representation means available. The maintenance and development of a fair assessment system, especially where there are overlapping and interrelated taxing jurisdictions will be a pressing necessity to the well being of local government in the future, particularly as demands upon local resources inevitably increase."

Since 1954, Granite City's share of the total tax rate collected in the city has ranged from 20 1/2 to 25 1/2. The 20 1/2 figure is for 1959 when the city rate per \$100 assessed valuation was 73.8 cents. In 1954, 1956 and 1957, however, the city's tax rate was higher, the high being 84.7 cents in 1957. The 1960 rate of 67 cents per \$100 assessed valuation set a new low for the period because the city did not levy tax rates for water, street lighting and working cash fund. The 1960 city rate

was approximately 18 1/2 of the total tax rate of \$3.66. "The Granite City school district has taken from 50% of total tax collections in 1954 up to 56% in 1959. The rate has risen almost every year to a high of \$2.04 per \$100 valuation in 1959 and increase in 1960 to \$2.22 or 60% of taxes paid by Granite City residents."
